## FOR EARTH ROADS

CONSTRUCTION DIFFERS BECAUSE OF DIFFERENT SOIL.

## WORK EARTH IN SPRING

If Put Off Until August It Bakes Dry and Hard—Get Rid of Storm Water Soon as Possible.

As soils differ for agricultural purposes, so they differ for roads, says the roads expert of the department of agriculture at Washington. Clay or soils of fine texture usually make poor roads, especially if they contain much vegetable matter. The coarser soils, however, which contain some sand or gravel, will often make very satisfactory roads for light traffic, provided they are kept in proper repair.

If the road is composed of fine clay or soil, it will sometimes pay to resurface it with top soil from an adjacent field which has sand or gravel mixed with it. This method, called the topsoil method, is now in successful use in Virginia, North Carolina and Georgia, and probably other states.

The earth road can best be crowned and ditched with a road machine, and not with picks and shovels, scoops and plows. One road machine, with a suitable power and operator, will do the work of many men with picks and shovels, and do it better.

The road machine should be used when the soil is damp, so as to make the soil bake when it dries out. If it is worked dry, it takes more power to draw the machine, and, beside, dry earth and dust retain moisture and quickly rot after rains. The use of cloeds, sods, weeds or vegetable matter in building earth roads should be avoided because they also retain moisture.

It is a great mistake to put the working of the earth off until August or September. The surface is then baked dry and hard. It is not only difficult to work, but is unsatisfactory work when done. Earth which is loose and dry will remain dusty as long as the dry weather lasts and then turn to mud as soon as the rains begin. By using the road machine in the spring of the year while the soil is soft and damp, the surface is more easily shaped and soon packs down into a dry hard crust which is less liable to become dusty in summer or muddy in winter.

Storm water should be disposed of quickly before it has time to penetrate deeply into the surface. This can be done by giving the road a crown or slope from the center to the sides. For an earth road which is 24 feet wide the center should be not less than 6 inches nor more than 12 inches higher than the outer edges of the shoulders. A narrow road which is too high in the middle will become rutted almost as quickly as one which is too flat for the reason that on the narrow road all the traffic is forced to use only a narrow strip.

Shoulders are often formed on both sides of the road which prevent storm water from flowing into side ditches, retaining it in the ruts and softening the roadway. These ruts and shoulders can be entirely eliminated with the road machine or split-log drag.

Ordinarily, the only ditches needed are those made with the road machine, which are wide and shallow. Deep, narrow ditches wash rapidly, especially on steep slopes, which is another good reason for decreasing the steepness of the grades. It is difficult to maintain an earth road, or any kind for that matter, on a steep grade.

The width of the earth road will depend on the traffic. As a rule, 25 or 30 feet from ditch to ditch is sufficient, if the road is properly crowned. A road that is narrower than 25 feet is difficult to maintain for the above stated reason, that on narrow roads the teams are more apt to track than on a wider road, causing it to rut if subjected to heavy hauling.

The road should not be loosened, dug, or plowed up any more than is absolutely necessary. The road should be gradually raised, not lowered; hardened, not softened.

On flat lands, where water moves slowly, grading material should be taken from the lower ditch and culverts supplied where waterways occur. A shallow ditch on the upper side makes it possible to give culverts a good fall. Two or more small pipes, instead of one large one of equal capacity, may be used for culverts, especially if the large pipe necessitates much grading or raising of the roadway. At least 6 inches should be left between each pipe and earth should be tamped around them thoroughly so as

(Continued on page 2.)

## DEATH OF MRS. LUCY CAREY.

Had Been in Poor Health for Several Years—Funeral Services Will Be Wednesday at 9 A. M.

Mrs. Lucy Carey, wife of William Carey, living six and a half miles southwest of Maryville, passed away Monday morning about 5 o'clock, of a complication of diseases. Mrs. Carey had been in ill health about twelve years, and was bedfast three weeks before her death.

The funeral services will be held Wednesday morning at 9 o'clock at St. Patrick's church in this city, by the pastor, Rev. Fr. Henry Niemann. Burial in St. Patrick's cemetery.

Mrs. Carey's maiden name was Lucy Keegin. She was born in Fosterdale, Sullivan county, New York, in June, 1850. When she was 20 years old she married William Carey at Fosterdale. They came at once to St. Joseph, Mo., to make their home, living on a farm near there about eight years, when they returned to New York for a year. They came back to St. Joseph and lived some ten years and then moved to a farm near Bolckow and resided eleven years. They went to Mountain View, Okla., and lived on a farm near there for three years, then came to Nodaway county and lived on a farm west of Barnard, in the Graham vicinity, four years. At the end of that time they moved to their present home, six and one-half miles southwest of Maryville.

Mrs. Carey was the mother of thirteen children, five of whom survive with her husband. Six children died in infancy—Patrick Carey died at the age of 22 and Katie at the age of 18. The living children are Rufus and Miss Ella Carey at home, William, Jr., and Henry Carey near Graham, and Frank Carey near Barnard.

Mrs. Carey was a sweet, cultured Christian woman. She was a true wife and mother, and although she had been unable to attend church for several years on account of ill health, her example was such as to impress her family and all who met her with the genuineness of her faith.

## A LARGE FUNERAL.

Many Friends Attended the last Rites for William P. Sims of Ravenwood Saturday Morning.

The funeral services for the late William P. Sims of Ravenwood were attended by a large gathering of friends at the Methodist church of that place Saturday morning at 11 o'clock. All the children were present and there were friends from Maryville, McFall, Grant City, King City, Parnell and St. Joseph, to honor the memory of Mr. Sims.

The burial services were in charge of the Masonic lodge and were conducted by District Deputy Joseph Reece. The pall bearers were Robert Allen, John Steiger, Charles C. Tebow, J. S. Casteel, S. E. Wells, A. G. Bentley.

## An Appeal to Circuit Court.

The case of Ozle H. Schoolen vs. B. Logan Holt estate, which was recently tried in probate court, has been appealed to the circuit court. Schoolen received a verdict for \$1,000 against the estate in probate court. The appeal was taken by the defendant.

## TO BE LIGHT TERM

NOT MANY CASES FILED FOR THE APRIL TERM OF COURT.

## SATURDAY LAST DAY

Of Service On All Suits Except Notes and Accounts—35 Cases Filed, 4 Being For Divorce.

The April term of circuit court will convene Monday, April 6, and promises to be one of the lightest terms of court held in recent years. Saturday was the last day of service for filing cases for this term in Circuit Clerk Rathbun's office on all suits except those on notes and accounts, which only take fifteen days' service.

Thirty-five cases were filed for this term and it is probable that several of these will be dismissed before court meets. There are no sensational cases for trial and very few jury cases.

There are only four divorce cases for this term, being the lightest number for a number of years.

This will be the first April term of court since the changes in court terms was made last year by the state legislature. The April term takes the place of the old June term.

## NORMAL SCHOOL NOTES.

The spring quarter opens today and promises to be fully as large or larger than in previous years. Quite a number of new students have been arriving and enrolled Saturday. A large number of new students are expected to arrive during this week.

The Normal school basket ball squad assembled at the Crow studios and had their pictures taken.

A call for men to take part in track work this spring will be issued the first of the week. Those who make the team will probably get to attend the inter-collegiate meet at Fayette in May.

## ARRESTS SHERIDAN

CHARGE OF RECEIVING STOLEN GOODS.

## TOM CASEY ALSO CAUGHT

Wanted at Rock Port For Burglary and Larceny—Supposition is That They Were Working Together.

Jim Sheridan of this city was arrested Saturday afternoon by Sheriff Ed Wallace on a charge of receiving stolen goods. His preliminary hearing will be held Thursday before Justice R. L. McDougal. Sheridan is charged with receiving a shotgun from Tom Casey, the alleged facts in the case being that Casey admitted stealing the gun.

Tom Casey was also arrested last Saturday, charged with burglary and larceny of the J. H. Traub hardware store at Rock Port, and was taken to that place Sunday by Sheriff Reynolds of Atchison county. Casey is said to have been operating on the Chicago Great Western railroad in this county, and his headquarters are supposed to be at Conception Junction. The railroad authorities have been watching him for some time and he was arrested by Deputy Sheriff Gabe Purcell of Conception Junction. It is thought that Casey has quite a police record at other places.

## Harrison Bros.' Office.

The office of Harrison Bros. Transfer company will be located with the Standard Plumbing company, 209 North Main street. Their phone number is 46. Harrison Bros. have been with the Wadley Bros.' harness shop, on the south side of the square.

Mr. and Mrs. George L. Evans are now residing in Maryville on East Third street. Mr. Evans and son, Everett Evans, will spend a greater part of their time with their store at Whitesville, Mo.

## BAPTIZED FORTY-THREE.

Sunday Was a Busy Day at the First Baptist Church—Seven More Received For Membership.

The First Baptist church Sunday school had the largest attendance in its history Sunday, 357 being in classes during the study hour. Rev. Hale's class of men numbered 74. All of the services were largely attended and seven more were received for membership.

At the beginning of the evening service at 7:30 the pastor administered the rite of baptism to forty-three men, women and children. This makes 191 baptized out of 112 that were approved for baptism during the revival services that closed Friday night. The remaining number will be baptized in the near future. Many people were turned away from Sunday night's services and the aisles were filled with chairs and many people stood in the back part of the church.

Next Sunday night the hand of church fellowship will be extended to all of the new members. Saturday afternoon the women of the church will hold a social in the church parlors from 2:30 to 5 o'clock. Every woman and girl in the church is invited to be present.

## MRS. WEEKS COMING.

Will Speak Thursday Evening in the High School Auditorium.

Superintendent W. M. Westbrook of the Maryville schools received word Monday morning saying that Mrs. E. K. Weeks of Kansas City, vice president of the National Parent-Teachers association, could speak in Maryville Thursday before the new Parent-Teachers association of this city, that will take the place of the Mothers' Circle.

Mrs. Weeks has been announced for next Friday afternoon, but the word has since come from her that her only open date will be the coming Thursday evening. Officers will be chosen at this meeting for the new association. A pleasant evening is promised and a fine program.

## DRAINAGE BONDS REGISTERED

One-Third of Them, \$10,000, Will Be Issued at Once to Get Money For the Work.

The entire 102 drainage district bond issue of \$30,000 has been registered with the state auditor at Jefferson City and are ready to be delivered. The Thompson Securities company of St. Louis purchased the entire issue, and only one-third of the issue will be received at this time, being the first installment. The other installments will be in the amount of \$5,000 and will be made every sixty days.

Work on the ditch will probably start before April 1 at the line near Hopkins.

## TO ATTEND MEETING.

Maryville Will Be Represented at the Convention at Jefferson City.

E. C. Curfman and Paul Sisson will leave this evening for Jefferson City, where they will attend the third annual convention of the Federation of Missouri Commercial Clubs as representatives of the Maryville Commercial club. The Jefferson City meeting is expected to be the greatest gathering of its kind in the state, and much good will be accomplished by the convention.

## Designer in Millinery Arrives

Miss Margaret Lee Winston of St. Joseph arrived in Maryville Sunday evening to take her position as designer in Miss Elizabeth Ashford's millinery establishment. Miss Winston held that position several years with Mrs. W. J. Staples, who was succeeded by Miss Ashford the first of the year. Mrs. Cora Trullinger, also an experienced milliner, and in business here three years successively, is with Miss Ashford for the coming season.

## Old Fashioned Spelling.

The Elm Grove school, of which Miss Golda Roach is teacher, held an old fashioned spelling and ciphering match Friday evening and everybody had a good time. The captain of one division was Helem Kemp and the captain of the other division was Sadie Alely, the latter winning.

## Left for Portland.

Mrs. Walker Lee Campbell left Sunday morning for her home in Portland, Ore., after a two months visit with her sister, Mrs. William Wallis, Jr. Mrs. Campbell will make short visits with relatives in Kansas City and Denver on her way home.

## Taken to Jefferson City.

Sheriff Ed Wallace left Sunday morning for Jefferson City with Frank Shelton, who will serve two years in the state penitentiary at that place for stealing chickens in the night time.

## SERVED LONGEST

JOHN J. MAHONEY WITH BURLINGTON FORTY-SIX YEARS.

## IS ON THE PENSION LIST

Because of His Faithful Service—Born in Ireland, Came Here at the Age of Fourteen.

John J. Mahoney of this city has finished a continuous service of forty-six years as section foreman for the Burlington railway. If any other man in the country has served a longer period on any other railroad it is not now known. He has given such faithful service to the Burlington railway here that he has been placed on the pension list and was so notified last Saturday. This was done in recognition of his work. In all of those years Mr. Mahoney had not lost a day from illness or any other cause until about a year ago, when he laid off a month on account of sickness.

Mr. Mahoney came to this country from County Tipperary, Ireland, when he was 14 years old. He was an orphan boy and had no one on whom he could depend. He first went to Alameda, N. Y., where he lived some old friends of his father's family. He lived with them while getting a start in railroading, and in a few years went to Toledo and they came at once to St. Joseph, Mo., where he entered the employ of the Burlington and worked on a section until the road was built through from Savannah to Creston. A year after he went to work he was asked to take the foremanship, but he refused because he had no education, having never learned to read or write. But the officials declared that would make no difference, that they would see to it that someone would assist him in making his reports, that they wanted a man they could depend on, so he accepted. After a short residence at Rushville, he came to Maryville and lived in the old section house that stood where the W. B. Beedle residence now stands. By hard work and close economy Mr. Mahoney has acquired two farms since locating here, an 80-acre farm two miles east of Wilcox, which he sold when he bought the farm of 82 acres lying two miles southeast of the city which he now owns aside from town property. Mr. Mahoney is 68 years old.

## TO LECTURE HERE.

Rev. Father Macleod to Appear at the Empire Theater on March 17.

Rev. Fr. Macleod, who is known in Maryville, having appeared at a Chautauqua assembly here a few years ago, is to give a lecture at the Empire theater on the evening of St. Patrick's day, Tuesday evening, March 17. Fr. Macleod is a noted speaker and writer in writing about him said:

"One hot August day I sat in a crowded Chautauqua tent, on a Sunday morning, to hear a man who was then to me unknown. It was Fr. Macleod, and he was announced to speak on 'National Anthems.' His train was late. It was nearly dinner time when he arrived. The crowd was tired and restless.

"But before he had spoken a dozen sentences all was forgotten except the lands an the people and the songs with which he claimed our attention. Not for years had I heard, in a single lecture, such a masterly mingling of description and history and legend; customs, national traits and national ambitions; the whole being joined together with the hymns of the peoples he described; proving and illustrating his theme that the national anthem is a true index of a nation's character—an epitome of its history."

## THE WEATHER

Generally fair tonight and Tuesday; warmer tonight; moderate winds.

FOR EARTH ROADS

(Continued from Page 1)  
to present a washout.

To prevent washing on steep roads, the water should be carried under the surface at frequent intervals from the upper to the lower side, and from the lower side away from the road. Five 12-inch pipes in a mile of roadway is about as cheap and far better than one 24-inch pipe. The water must be disposed of before it gains force or headway, or has time to damage the road.

The maximum velocity for a 24-inch vitrified tile flowing full without head on a grade of 2 inches per hundred feet is 2.6 feet per second, or about 2 1/4 miles per hour. When the grade is increased to 36 inches in 100 feet the velocity becomes 20 feet per second, or about 13 1/2 miles per hour. The discharge for the 24-inch pipe in the first instance will be 5,086 gallons per minute, and for the steeper grade 28,269 gallons per minute. It will therefore be seen that a 24-inch pipe laid on a grade of 36 inches to the 100 feet will have over five times the capacity of the same size pipe laid on a grade of 2 inches to the 100 feet.

Under the same conditions the maximum velocity for a 12-inch tile on a grade of 10 feet per 100 feet equals 1 1/4 inches per second, or about seven-eighths of a mile per hour, and for the same tile on a grade of 36 inches to the 100 feet the velocity would be 7 1/2 feet per second or about 5-1/6 miles per hour. The discharge for the 12-inch tile in the first instance would be 442 gallons per minute, and for the steeper grade 2,650 gallons per minute, or about five times as much.

By increasing the fall we increase the capacity of the pipe, decrease the size of the pipe necessary, and therefore decrease the cost of the culverts. Furthermore, culverts laid flat will soon fill up, but if given a good fall they will keep themselves clear.

If much fall is obtained in a culvert pipe, the spillway should be paved. Earth should be tamped under and around the pipe in layers, and should be of sufficient depth to prevent the pipe from being broken by traffic; but under no circumstances should a ridge over the culvert be allowed, for it not only endangers the life of the culvert, but is a menace to traffic.

An attempt to drain mud holes with culvert pipe will fail in most cases. The water should be drained off by means of open ditches; the soft mud thrown out and replaced with just enough good firm earth to make it level (after consolidation) with the surrounding surface. If mud holes in earth roads are filled with brush or stone, it will usually result in two mud holes, one at each end.

Repairs to roads should be made when needed, and not once a year after crops are "laid by." One day's labor,

INDIGESTION ENDED,  
STOMACH FEELS FINE

Time "Pape's Diapepsin" In Five Minutes All Sourness, Gas, Heartburn and Dyspepsia is Gone.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.—Advertisement.

Judiciously distributed throughout the year will accomplish more and better work in the maintenance of an earth road than the same amount of labor expended in six days, especially if the six days are in August, September or October, when the ground is hard and dry.

Because of its simplicity, its efficiency and cheapness, the split-log drag or some similar device is destined to come into more and more general use. With the drag properly built and its use well understood, the maintenance of earth and gravel roads becomes a simple and inexpensive matter. Care should be taken to make the log so light that one man can lift it with ease, as a light drag can be drawn by two medium sized horses, and responds more readily to various methods of hitching and shifting positions of the operator than a heavier one.

WHY 7,000 DRUGGISTS

Guarantee and Recommend Vinol.

If any one should know the value of a medicine it is the retail druggist who sells it.

Therefore, when over seven thousand of the best retail druggists in the country recommend Vinol, our delicious cod liver and iron tonic reconstructs and strength creator they have ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following:

J. C. Brady, druggist of Fall River, Mass., says: "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure."

C. A. Potterfield, druggist, of Charleston, W. Va., says: "It is a pleasure to sell Vinol as it gives such universal satisfaction."

Hunter—McGee, druggists, of Jackson, Miss., say: "We have great confidence in the strength creating and curative value of Vinol."

We ask every run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis, to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim.—Orean-Henry Drug Co., Maryville, Mo.—Advertisement.

Mr. and Mrs. Harry Culbertson of near Arkoe visited in Maryville over Sunday with Miss Hattie Patterson.

Mr. and Mrs. E. L. Ferritor and children visited in St. Joseph over Sunday with relatives.

News of Society  
and Womens' Clubs

Birthday Dinner.

Miss Amelia Bredenbeck was the honoree of a birthday dinner party given Saturday noon by her mother, Mrs. William Bredenbeck. The guests were Miss Bredenbeck, Esther, Margaret and Grace Dietz, Edward William Dietz and Miss Amelia Butherus.

Complimentary to Mrs. Beech.

The Shakespearean and Arts and Crafts departments of the Twentieth Century club will meet Tuesday afternoon at the home of Mrs. C. C. Corwin. This joint session of the departments will be complimentary to Mrs. Scribner Beech, Sr., who will leave in a few weeks for her new home in California. Mrs. Beech is a charter member of the Shakespearean club and president of the Arts and Crafts department.

Entertained for Mother.

Mrs. Oliver K. Bovard entertained the Monday Afternoon Auction Bridge club for her mother, Mrs. F. G. Shoemaker, who returned Sunday from a month's visit in Oklahoma City and Chetopa, Kan. She was the guest of her son, F. G. Shoemaker, Jr., in Oklahoma City, and the last two weeks she spent with Mrs. Archie D. Neale of Chetopa. The guests of the club Monday were Mrs. D. J. Thomas, Miss Elise Jackson and Mrs. LeGrand Gann.

New Members for D. A. R.

At the meeting of the D. A. R. chapter Saturday afternoon at the home of Mrs. J. A. Ford, two new members were added Mrs. M. A. Ummethum of Kansas City, the mother of Mrs. E. G. Orear, regent of the chapter, and Miss Mabel Owens of Shelbyville, Mo., a niece of Miss Beulah Bruner of the Normal

faculty, who is attending school here. The chapter spent a delightful afternoon, the hostesses, Mrs. Ford and Mrs. Benight, inviting the members to remain for luncheon.

Distinguished Guests.

Miss Louella Read of Shenandoah, Ia., and her friend, Miss Elizabeth Hughes of Pekin, China, arrived in Maryville Monday and are guests in the home of Mr. and Mrs. G. H. Colbert. Miss Read addressed the women of the Twentieth Century club at the Elks club Monday afternoon on the subject of "German Writers." Miss Hughes is at home on vacation. She is a member of the faculty of the Indemnity college at Pekin, being one of eighteen teachers from the United States. The students are from the high class Chinese. Miss Hughes was in China during the revolution and has had experience most unusual.

The Presbyterians Will Feast.

The annual social event of the First Presbyterian church will take place Thursday of this week in the church parlors. The committee for every part of this event will be the standing social committee of the church, composed of Mrs. J. F. Colby, chairman; Mrs. F. M. Petty, Mrs. W. B. Scott, Mrs. W. H. Crawford, Mrs. B. M. Cottrill, Miss Jessie Pacher, Dr. F. M. Martin, Professor Swinehart and John Dempsey, and the following sub-committees: On reception, Mr. and Mrs. S. E. Farmer, Mr. and Mrs. G. H. Colbert, Rev. and Mrs. S. D. Harkness. On tables, J. K. Sawyers, Charles Wadley and A. R. Sage, Meats, John Dempsey and LeRoy Lippman. Pickles and salads, Mrs. J. A. Ford and Mrs. J. H. Eckles. Pie and cake, Mrs. Isabel Worst, Mrs. Hal T. Hooker and Mrs. Rankin Lyle. Bread and butter, Mrs. Cottrill, Mrs. Lizzie Sawyers and Mrs. S. G. Gillam. Coffee, Mrs. A. R. Sage and Mrs. John Dempsey.

Mr. and Mrs. Emmett Scott visited in Burlington Junction over Sunday with Mr. and Mrs. W. N. Houston.

Operation on Julia Marlowe.

Baltimore, March 9.—Julia Marlowe the actress, who recently was taken ill in Los Angeles, Cal., was operated on for appendicitis at a hospital here according to a report from a reliable source. Her condition was said to be serious.

Bandit Robs Bank in Sacramento.

The officers and directors of the First National Bank and the Gillam-Jackson Loan and Trust Co. are exceedingly pleased with the above statement. The real value of a financial institution to a community is its ability to meet the demands of such community under any and all circumstances. The test of an institution engaged in making farm loans comes around March 1st of each year. This business is the chief feature of our Loan and Trust Company, and the confidence of the investing public in it, and its ability to expand to meet the demands of this particular season of the year is attested by the large funds placed with it at this time designated as "Deposits—temporary and awaiting investment."

For those with money to invest to place such an amount at its command at this time not only at tests a high degree of confidence upon the part of investors, but also evidences the ability of the Loan and Trust Company to meet the demands of the community at all seasons of the year.

In soliciting the business of the banking and investing public we offer the above statement as the best evidence of the strength of our combined institutions and their ability to serve at all times.

March 4, 1913, the First National Bank's total resources were \$736,234.99. March 4, 1914, the total resources of such bank and its associate Loan and Trust Company were \$1,144,664.92. Note the increase—\$408,429.93.

This increase has never been equalled in the financial affairs of the community.

Come with us. We will appreciate your business and offer you "Absolute safety and unexcelled service."

The Above Statements are Correct, JOS. JACKSON, JR., Cashier and Secretary

### Appointed Administratrix.

Mrs. Rebecca Brink was appointed administratrix of the estate of the late John L. Moore, whose death occurred February 26. Mrs. Brink was also appointed guardian of person and estate of Ernest W. Moore, George E. Moore, Fern F. Moore, Ralph C. Moore,

Harold L. Moore, Leonard J. Moore, all minors.

Loris and Vern Claycomb went to Pickering Saturday to visit over Sunday with their grandmother, Mrs. Mary Sandler.

Sheep—3,000. Market steady.

Miss Manila Stock of Topeka, Kan., left for her home Saturday evening. Miss Stock came to Maryville last Tuesday with her father to attend the funeral of Mrs. Katherine Krause, and remained the guest of Mrs. Richard Kuchs and family.

### BUSINESS COLLEGE NOTES.

Miss Nettie Cox began a special course in penmanship this week.

Frank Porter, who has been out of school the past two weeks on account of sickness, has gone to his home at Clearfield, Ia.

Roy Jackson is back in school again after a siege of the mumps.

The many friends of Miss Mabel Neal will be pleased to learn that she is getting better, but will not be able to return to school for two or three weeks.

Miss Mary Stundon returned to school last Monday after being absent two weeks on account of sickness.

Mr. Davidson, Mr. Hutchison and Mr.

Welch, as well as Miss Nicholas, have been assisting Mr. J. Arthur Wray, county recorder, this week.

The Business college is a very busy place these days, for about one hundred teachers are taking the examination under the supervision of the county superintendent, Mr. Oakerson. Nodaway county is to be congratulated on the number of bright and intelligent young ladies and gentlemen enrolled in its teaching force.

Mrs. J. D. McGinnes and Mrs. H. J. Cline of Pickering were in Maryville Saturday on business.

## Andrews & Hempstead

Grocers and Bakers

This bakery has been running in Maryville for over 30 years, during that time a good many people have moved out of the city for various reasons and a great many more have moved in for the same reason. We really think a good many people don't know anything about our bakery and its products; in the first place we bake all our goods at night, so you can get fresh baked goods any morning by 7 o'clock, and we make a variety of bread that ought to please most any one except a dyspeptic.

Our daily output of bread consists of rye, graham, cream or (sandwich), pullman, quaker, rolls, buns, coffeebread and cinnamon rolls and a full assortment of cakes, cookies, doughnuts and pies. If you will phone us any morning between 8 and 9 you can have this delivered any place in the city before 12 o'clock.

The quality and price is right and we will let you be the judge and jury. Call 34 Hanamo or drop in when you are up town.

## Andrews & Hempstead

The Oldest Bakery in Northwest Missouri

We have many difficult cases of eye troubles to deal with—optical defects—that only glasses will relieve. You may have had other glasses that did not suit you, and been thoroughly disgusted with them, but that is no reason why you shouldn't take time to get glasses that are worth while. Not any glasses, but ones that are exactly suited to your eyes. Our examinations are thorough and accurate. When will you call?

H. T. CRANE  
Jeweler and Optician.

### IF WE CAN'T MAKE THAT WATCH OF YOURS GO

You may just as well give it to the baby to play with.

JAS. STEWART, who has had 30 years experience, has charge of our watch repairing department. We can get all of the service out of your watch that there is in it, even down to the last tick. Let us try it—Is all We Ask.

## Douglass (Colored) School.

A program was rendered at the Douglass (colored) school to the patrons of Maryville. Recitations, songs, select readings and papers were rendered by the pupils. Visitors present, Rev. D. A. Brown, C. C. Baker, J. L. Gooden, Ozle Schooler, Mrs. Brown and Mrs. Madison and Superintendent W. M. Westbrook. After the program Superintendent Westbrook made some timely and well accepted remarks that were helpful, encouraging and elevating to both pupils and visitors. Words of encouragement were given by all present. We are grateful to the patrons and our superintendent, also to Mr. O. Schooler, who read a paper on the history of Douglass school. All reported an enjoyable afternoon, and we wish to thank them for their presence and cordially extend an invitation to the citizens of Maryville to inspect our work. When idle for a few minutes some spend time with us. We need the encouragement, and I ask you, both white and colored, to help arouse some school interest with the members of my race. Thanking you for the help you may offer us in advance.

Facts About Western  
Canada

The farmer of today is recognized as a business man and puts himself on the pay roll at a salary beyond the dreams of the average man in the city, and he pays dividends on his investment.

Nowhere is he in a better position to realize the full profit of this condition than in Western Canada, with the rich productive soil at small cost and splendid markets; realizing from 40 to 100 per cent on his investment and obtaining the independence that cannot belong to any other business man.

The 433,000,000 bushel grain crop of Saskatchewan and Alberta yielded \$235,000,000 to the farmers last year.

This represents the partial yield of less than 15 per cent of the available land under cultivation. Millions upon millions of acres of the finest arable land in the world awaits the plough—YOUR PLOUGH.

The annual increase in the world's population establishes an ever-growing market, and nowhere can you find more ideal conditions for grain raising than Western Canada affords. Grain growing, however, is but one item in the success of the Canadian farmer.

Our first excursion to this country of opportunity will be April 7th. For rates and terms see

## FOR EARTH ROADS

CONSTRUCTION DIFFERS BECAUSE OF DIFFERENT SOIL.

## WORK EARTH IN SPRING

If Put Off Until August It Bakes Dry and Hard—Get Rid of Storm Water Soon as Possible.

As soils differ for agricultural purposes, so they differ for roads, says the roads expert of the department of agriculture at Washington. Clay or soils of fine texture usually make poor roads, especially if they contain much vegetable matter. The coarser soils, however, which contain some sand or gravel, will often make very satisfactory roads for light traffic, provided they are kept in proper repair.

If the road is composed of fine clay or soil, it will sometimes pay to resurface it with top soil from an adjacent field which has sand or gravel mixed with it. This method, called the top-soil method, is now in successful use in Virginia, North Carolina and Georgia, and probably other states.

The earth road can best be crowned and ditched with a road machine, and not with picks and shovels, scoops and plows. One road machine, with a suitable power and operator, will do the work of many men with picks and shovels, and do it better.

The road machine should be used when the soil is damp, so as to make the soil bake when it dries out. If it is worked dry, it takes more power to draw the machine, and, beside, dry earth and dust retain moisture and quickly run after rains. The use of clods, sods, weeds or vegetable matter in building earth roads should be avoided because they also retain moisture.

It is a great mistake to put the working of the earth off until August or September. The surface is then baked dry and hard. It is not only difficult to work, but is unsatisfactory work when done. Earth which is loose and dry will remain dusty as long as the dry weather lasts and then turn to mud as soon as the rains begin. By using the road machine in the spring of the year while the soil is soft and damp, the surface is more easily shaped and soon packs down into a dry hard crust which is less liable to become dusty in summer or muddy in winter.

Storm water should be disposed of quickly before it has time to penetrate deeply into the surface. This can be done by giving the road a crown or slope from the center to the sides. For an earth road which is 24 feet wide the center should be not less than 6 inches nor more than 12 inches higher than the outer edges of the shoulders. A narrow road which is too high in the middle will become rutted almost as quickly as one which is too flat for the reason that on the narrow road all the traffic is forced to use only a narrow strip.

Shoulders are often formed on both sides of the road which prevent storm water from flowing into side ditches, retaining it in the ruts and softening the roadway. These ruts and shoulders can be entirely eliminated with the road machine or split-log drag.

Ordinarily, the only ditches needed are those made with the road machine, which are wide and shallow. Deep, narrow ditches wash rapidly, especially on steep slopes, which is another good reason for decreasing the steepness of the grades. It is difficult to maintain an earth road, or any kind for that matter, on a steep grade.

The width of the earth road will depend on the traffic. As a rule, 25 or 30 feet from ditch to ditch is sufficient, if the road is properly crowned. A road that is narrower than 25 feet is difficult to maintain for the above stated reason, that on narrow roads the teams are more apt to track than on a wider road, causing it to rut if subjected to heavy hauling.

The road should not be loosened, dug, or plowed up any more than is absolutely necessary. The road should be gradually raised, not lowered; hardened, not softened.

On flat lands, where water moves slowly, grading material should be taken from the lower ditch and culverts supplied where waterways occur. A shallow ditch on the upper side makes it possible to give culverts a good fall. Two or more small pipes, instead of one large one of equal capacity, may be used for culverts, especially if the large pipe necessitates much grading or raising of the roadway. At least 6 inches should be left between each pipe and earth should be tamped around them thoroughly so as

(Continued on page 2.)

## DEATH OF MRS. LUCY CAREY.

Had Been in Poor Health for Several Years—Funeral Services Will Be Wednesday at 9 A. M.

Mrs. Lucy Carey, wife of William Carey, living six and a half miles southwest of Maryville, passed away Monday morning about 5 o'clock, of a complication of diseases. Mrs. Carey had been in ill health about twelve years, and was bedfast three weeks before her death.

The funeral services will be held Wednesday morning at 9 o'clock at St. Patrick's church in this city, by the pastor, Rev. Fr. Henry Niemann. Burial in St. Patrick's cemetery.

Mrs. Carey's maiden name was Lucy Keegin. She was born in Fosterdale, Sullivan county, New York, in June, 1850. When she was 20 years old she married William Carey at Fosterdale. They came at once to St. Joseph, Mo., to make their home, living on a farm near there about eight years, when they returned to New York for a year. They came back to St. Joseph and lived some ten years and then moved to a farm near Bolckow and resided eleven years. They went to Mountain View, Okla., and lived on a farm near there for three years, then came to Nodaway county and lived on a farm west of Barnard, in the Graham vicinity, four years. At the end of that time they moved to their present home, six and one-half miles southwest of Maryville.

Mrs. Carey was the mother of thirteen children, five of whom survive with her husband. Six children died in infancy—Patrick Carey died at the age of 22 and Katie at the age of 18. The living children are Rufus and Miss Ella Carey at home, William, Jr., and Henry Carey near Graham, and Frank Carey near Barnard.

Mrs. Carey was a sweet, cultured, Christian woman. She was a true wife and mother, and although she had been unable to attend church for several years on account of ill health, her example was such as to impress her family and all who met her with the genuineness of her faith.

## A LARGE FUNERAL.

Many Friends Attended the last Rites for William P. Sims of Ravenwood Saturday Morning.

The funeral services for the late William P. Sims of Ravenwood were attended by a large gathering of friends at the Methodist church of that place Saturday morning at 11 o'clock. All the children were present and there were friends from Maryville, McFall, Grant City, King City, Parnell and St. Joseph, to honor the memory of Mr. Sims.

The burial services were in charge of the Masonic lodge and were conducted by District Deputy Joseph Reece. The pall bearers were Robert Allen, John Steiger, Charles C. Tebow, J. S. Casteel, S. E. Wells, A. G. Bentley.

## An Appeal to Circuit Court.

The case of Ozie H. Schoolen vs. B. Logan Holt estate, which was recently tried in probate court, has been appealed to the circuit court. Schoolen received a verdict for \$1,000 against the estate in probate court. The appeal was taken by the defendant.

## TO BE LIGHT TERM

NOT MANY CASES FILED FOR THE APRIL TERM OF COURT.

## SATURDAY LAST DAY

Of Service On All Suits Except Notes and Accounts—35 Cases Filed, 4 Being For Divorce.

The April term of circuit court will convene Monday, April 6, and promises to be one of the lightest terms of court held in recent years. Saturday was the last day of service for filing cases for this term in Circuit Clerk Rathbun's office on all suits except those on notes and accounts, which only take fifteen days' service.

Thirty-five cases were filed for this term and it is probable that several of these will be dismissed before court meets. There are no sensational cases for trial and very few jury cases.

There are only four divorce cases for this term, being the lightest number for a number of years.

This will be the first April term of court since the changes in court terms was made last year by the state legislature. The April term takes the place of the old June term.

## NORMAL SCHOOL NOTES.

The spring quarter opens today and promises to be fully as large or larger than in previous years. Quite a number of new students have been arriving and enrolled Saturday. A large number of new students are expected to arrive during this week.

The Normal school basketball squad assembled at the Crow studios and had their pictures taken.

A call for men to take part in track work this spring will be issued the first of the week. Those who make the team will probably get to attend the inter-collegiate meet at Fayette in May.

## ARRESTS SHERIDAN

CHARGE OF RECEIVING STOLEN GOODS.

## TOM CASEY ALSO CAUGHT

Wanted at Rock Port For Burglary and Larceny—Supposition is That They Were Working Together.

Jim Sheridan of this city was arrested Saturday afternoon by Sheriff Ed Wallace on a charge of receiving stolen goods. His preliminary hearing will be held Thursday before Justice R. L. McDougal. Sheridan is charged with receiving a shotgun from Tom Casey, the alleged facts in the case being that Casey admitted stealing the gun.

Tom Casey was also arrested last Saturday, charged with burglary and larceny of the J. H. Traub hardware store at Rock Port, and was taken to that place Sunday by Sheriff Reynolds of Atchison county. Casey is said to have been operating on the Chicago Great Western railroad in this county, and his headquarters are supposed to be at Conception Junction. The railroad authorities have been watching him for some time and he was arrested by Deputy Sheriff Gabe Purcell of Conception Junction. It is thought that Casey has quite a police record at other places.

## Harrison Bros.' Office.

The office of Harrison Bros. Transfer company will be located with the Standard Plumbing company, 209 North Main street. Their phone number is 46. Harrison Bros. have been with the Wadley Bros. harness shop, on the south side of the square.

Mr. and Mrs. George L. Evans are now residing in Maryville on East Third street. Mr. Evans and son, Everett Evans, will spend a greater part of their time with their store at Whitesville, Mo.

## BAPTIZED FORTY-THREE.

Sunday Was a Busy Day at the First Baptist Church—Seven More Received For Membership.

The First Baptist church Sunday school had the largest attendance in its history Sunday, 357 being in classes during the study hour. Rev. Hale's class of men numbered 74. All of the services were largely attended and seven more were received for membership.

At the beginning of the evening service at 7:30 the pastor administered the rite of baptism to forty-three men, women and children. This makes 101 baptized out of 112 that were approved for baptism during the revival services that closed Friday night. The remaining number will be baptized in the near future. Many people were turned away from Sunday night's services and the aisles were filled with chairs and many people stood in the back part of the church.

Next Sunday night the hand of church fellowship will be extended to all of the new members. Saturday afternoon the women of the church will hold a social in the church parlors from 2:30 to 5 o'clock. Every woman and girl in the church is invited to be present.

## MRS. WEEKS COMING.

Will Speak Thursday Evening in the High School Auditorium.

Superintendent W. M. Westbrook of the Maryville schools received word Monday morning saying that Mrs. E. R. Weeks of Kansas City, vice president of the National Parent-Teachers association, could speak in Maryville Thursday before the new Parent-Teachers association of this city, that will take the place of the Mothers' Circle.

Mrs. Weeks has been announced for next Friday afternoon, but the word has since come from her that her only open date will be the coming Thursday evening. Officers will be chosen at this meeting for the new association. A pleasant evening is promised and a fine program.

## DRAINAGE BONDS REGISTERED

One-Third of Them, \$10,000, Will Be Issued at Once to Get Money For the Work.

The entire 102 drainage district bond issue of \$30,000 has been registered with the state auditor at Jefferson City and are ready to be delivered. The Thompson Securities company of St. Louis purchased the entire issue, and only one-third of the issue will be received at this time, being the first installment. The other installments will be in the amount of \$5,000 and will be made every sixty days.

Work on the ditch will probably start before April 1 at the line near Hopkins.

## TO ATTEND MEETING.

Maryville Will Be Represented at the Convention at Jefferson City.

E. C. Curfman and Paul Sisson will leave this evening for Jefferson City, where they will attend the third annual convention of the Federation of Missouri Commercial Clubs as representatives of the Maryville Commercial club. The Jefferson City meeting is expected to be the greatest gathering of its kind in the state, and much good will be accomplished by the convention.

## Designer in Millinery Arrives

Miss Margaret Lee Winston of St. Joseph arrived in Maryville Sunday evening to take her position as designer in Miss Elizabeth Ashford's millinery establishment. Miss Winston held that position several years with Mrs. W. J. Staples, who was succeeded by Miss Ashford the first of the year. Mrs. Cora Trullinger, also an experienced milliner, and in business here three years successively, is with Miss Ashford for the coming season.

## Old Fashioned Spelling.

The Elm Grove school, of which Miss Golda Roach is teacher, held an old fashioned spelling and ciphering match Friday evening and everybody had a good time. The captain of one division was Helem Kemp and the captain of the other division was Sadie Aley, the latter winning.

## Left for Portland.

Mrs. Walker Lee Campbell left Sunday morning for her home in Portland, Ore., after a two months visit with her sister, Mrs. William Wallis, Jr. Mrs. Campbell will make short visits with relatives in Kansas City and Denver on her way home.

## Taken to Jefferson City.

Sheriff Ed Wallace left Sunday morning for Jefferson City with Frank Shelton, who will serve two years in the state penitentiary at that place for stealing chickens in the night time.

## SERVED LONGEST

JOHN J. MAHONEY WITH BURLINGTON FORTY-SIX YEARS.

## IS ON THE PENSION LIST

Because of His Faithful Service—Born in Ireland, Came Here at the Age of Fourteen.

John J. Mahoney of this city has finished a continuous service of forty-six years as section foreman for the Burlington railway. If any other man in the country has served a longer period on any other railroad it is not now known. He has given such faithful service to the Burlington railway here that he has been placed on the pension list and was so notified last Saturday. This was done in recognition of his work. In all of those years Mr. Mahoney had not lost a day from illness or any other cause until about a year ago, when he laid off a month on account of sickness.

Mr. Mahoney came to this country from County Tipperary, Ireland, when he was 14 years old. He was an orphan boy and had no one on whom he could depend. He first went to Almira, N. Y., where lived some old friends of his father's family. He lived with them while getting a start in railroading, and in a few years went to Toledo and they came at once to St. Joseph, Mo., where he entered the employ of the Burlington and worked on a section until the road was built through from Savannah to Creston. A year after he went to work he was asked to take the foremanship, but he refused because he had no education, having never learned to read or write. But the officials declared that would make no difference, that they would see to it that someone would assist him in making his reports, that they wanted a man they could depend on, so he accepted. After a short residence at Rushville, he came to Maryville and lived in the old section house that stood where the W. B. Beedle residence now stands. By hard work and close economy Mr. Mahoney has acquired two farms since locating here, an 80-acre farm two miles east of Wilcox, which he sold when he bought the farm of 82 acres lying two miles southeast of the city which he now owns aside from town property.

Mr. Mahoney is 68 years old.

## TO LECTURE HERE.

Rev. Father Macleod to Appear at the Empire Theater on March 17.

Rev. Fr. Macleod, who is known in Maryville, having appeared at a Chautauqua assembly here a few years ago, is to give a lecture at the Empire theater on the evening of St. Patrick's day, Tuesday evening, March 17. Fr. Macleod is a noted speaker and writer in writing about him said:

"One hot August day I sat in a crowded Chautauqua tent, on a Sunday morning, to hear a man who was then to me unknown. It was Fr. Macleod, and he was announced to speak on 'National Anthems.' His train was late. It was nearly dinner time when he arrived. The crowd was tired and restless.

"But before he had spoken a dozen sentences all was forgotten except the lands and the people and the songs with which he claimed our attention. Not for years had I heard, in a single lecture, such a masterly mingling of description and history and legend; customs, national traits and national ambitions; the whole being joined together with the hymns of the peoples he described; proving and illustrating his theme that the national anthem is a true index of a nation's character—an epitome of its history."

## THE WEATHER

Generally fair tonight and Tuesday; warmer tonight; moderate winds.

## FOR EARTH ROADS

(Continued from Page 1)

to present a washout.

To prevent washing on steep roads, the water should be carried under the surface at frequent intervals from the upper to the lower side, and from the lower side away from the road. Five 12-inch pipes in a mile of roadway is about as cheap and far better than one 24-inch pipe. The water must be disposed of before it gains force or headway, or has time to damage the road.

The maximum velocity for a 24-inch vitrified tile flowing full without head on a grade of 2 inches per hundred feet is 3.6 feet per second, or about 2 1/4 miles per hour. When the grade is increased to 36 inches in 100 feet the velocity becomes 20 feet per second, or about 13 1/2 miles per hour. The discharge for the 24-inch pipe in the first instance will be 5,086 gallons per minute, and for the steeper grade 28,260 gallons per minute. It will therefore be seen that a 24-inch pipe laid on a grade of 36 inches to the 100 feet will have over five times the capacity of the same size pipe laid on a grade of 2 inches to the 100 feet.

Under the same conditions the maximum velocity for a 12-inch tile on a grade of 10 feet per 100 feet equals 1 1/2 inches per second, or about seven-eighths of a mile per hour, and for the same tile on a grade of 36 inches to the 100 feet the velocity would be 7 1/2 feet per second or about 5 1/2 miles per hour. The discharge for the 12-inch tile in the first instance would be 442 gallons per minute, and for the steeper grade 2,650 gallons per minute, or about five times as much.

By increasing the fall we increase the capacity of the pipe, decrease the size of the pipe necessary, and therefore decrease the cost of the culverts. Furthermore, culverts laid flat will soon fill up, but if given a good fall they will keep themselves clear.

If much fall is obtained in a culvert pipe, the spillway should be paved. Earth should be tamped under and around the pipe in layers, and should be of sufficient depth to prevent the pipe from being broken by traffic; but under no circumstances should a ridge over the culvert be allowed, for it not only endangers the life of the culvert, but is a menace to traffic.

An attempt to drain mud holes with culvert pipe will fail in most cases. The water should be drained off by means of open ditches; the soft mud thrown out and replaced with just enough good firm earth to make it level (after consolidation) with the surrounding surface. If mud holes in earth roads are filled with brush or stone, it will usually result in two mud holes, one at each end.

Repairs to roads should be made when needed, and not once a year after crops are "laid by." One day's labor,

## INDIGESTION ENDED, STOMACH FEELS FINE

Time "Pape's Diapepsin!" In Five Minutes All Sourness, Gas, Heartburn and Dyspepsia is Gone.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.—Advertisement.

judiciously distributed throughout the year will accomplish more and better work in the maintenance of an earth road than the same amount of labor expended in six days, especially if the six days are in August, September or October, when the ground is hard and dry.

Because of its simplicity, its efficiency and cheapness, the split-log drag or some similar device is destined to come into more and more general use. With the drag properly built and its use well understood, the maintenance of earth and gravel roads becomes a simple and inexpensive matter. Care should be taken to make the log so light that one man can lift it with ease, as a light drag can be drawn by two medium sized horses, and responds more readily to various methods of hitching and shifting positions of the operator than a heavier one.

## WHY 7,000 DRUGGISTS

Guarantee and Recommend Vinol.

If any one should know the value of a medicine it is the retail druggist who sells it.

Therefore, when over seven thousand of the best retail druggists in the country recommend Vinol, our delicious cod liver and iron tonic reconstructs and strength creator they have ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following:

J. C. Brady, druggist of Fall River, Mass., says: "In cases where cod liver oil, emulsions and other tonics fail, Vinol will heal, strengthen and cure."

C. A. Potterfield, druggist, of Charleston, W. Va., says: "It is a pleasure to sell Vinol as it gives such universal satisfaction."

Hunter—McGee, druggists, of Jackson, Miss., say: "We have great confidence in the strength creating and curative value of Vinol."

We ask every run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis, to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim.—Orear-Henry Drug Co., Maryville, Mo.—Advertisement.

Mr. and Mrs. Harry Culbertson of near Arkoe visited in Maryville over Sunday with Miss Hattie Patterson.

Mr. and Mrs. E. L. Ferritor and children visited in St. Joseph over Sunday with relatives.

## News of Society and Womens' Clubs

### Birthday Dinner.

Miss Amelia Bredenbeck was the honoree of a birthday dinner party given Saturday noon by her mother, Mrs. William Bredenbeck. The guests were Miss Bredenbeck, Esther, Margaret and Grace Dietz, Edward William Dietz and Miss Amelia Butherus.

### Complimentary to Mrs. Beech.

The Shakespearean and Arts and Crafts departments of the Twentieth Century club will meet Tuesday afternoon at the home of Mrs. C. C. Corwin. This joint session of the departments will be complimentary to Mrs. Scribner Beech, Sr., who will leave in a few weeks for her new home in California. Mrs. Beech is a charter member of the Shakespearean club and president of the Arts and Crafts department.

### Entertained for Mother.

Mrs. Oliver K. Bovard entertained the Monday Afternoon Auction Bridge club for her mother, Mrs. F. G. Shoemaker, who returned Sunday from a month's visit in Oklahoma City and Chetopa, Kan. She was the guest of her son, F. G. Shoemaker, Jr., in Oklahoma City, and the last two weeks she spent with Mrs. Archie D. Neale of Chetopa. The guests of the club Monday were Mrs. D. J. Thomas, Miss Elise Jackson and Mrs. LeGrand Gann.

### New Members for D. A. R.

At the meeting of the D. A. R. chapter Saturday afternoon at the home of Mrs. J. A. Ford, two new members were added Mrs. M. A. Ummethum of Kansas City, the mother of Mrs. E. G. Orear, regent of the chapter, and Miss Mabel Owens of Shelbyville, Mo., a niece of Miss Beulah Bruner of the Normal

faculty, who is attending school here. The chapter spent a delightful afternoon, the hostesses, Mrs. Ford and Mrs. Benight, inviting the members to remain for luncheon.

### Distinguished Guests.

Miss Louella Read of Shenandoah, Ia., and her friend, Miss Elizabeth Hughes of Pekin, China, arrived in Maryville Monday and are guests in the home of Mr. and Mrs. G. H. Colbert. Miss Read addressed the women of the Twentieth Century club at the Elks club Monday afternoon on the subject of "German Writers." Miss Hughes is at home on vacation. She is a member of the faculty of the Indiana college at Pekin, being one of eighteen teachers from the United States. The students are from the high class Chinese. Miss Hughes was in China during the revolution and has had experience most unusual.

### The Presbyterians Will Feast.

The annual social event of the First Presbyterian church will take place Thursday of this week in the church parlors. The committee for every part of this event will be the standing social committee of the church, composed of Mrs. J. F. Colby, chairman; Mrs. F. M. Petty, Mrs. W. B. Scott, Mrs. W. H. Crawford, Mrs. B. M. Cottrill, Miss Jessie Parcher, Dr. F. M. Martin, Professor Swinehart and John Dempsey, and the following sub-committees: On reception, Mr. and Mrs. S. E. Farmer, Mr. and Mrs. G. H. Colbert, Rev. and Mrs. S. D. Harkness. On tables, J. K. Sawyers, Charles Wadley and A. R. Sage, Meats, John Dempsey and LeRoy Lippman. Pickles and salads, Mrs. J. A. Ford and Mrs. J. H. Eckles. Pie and cake, Mrs. Isabel Worst, Mrs. Hal T. Hooker and Mrs. Rankin Lyle. Bread and butter, Mrs. Cottrill, Mrs. Lizzie Sawyers and Mrs. S. G. Gillam. Coffee, Mrs. A. R. Sage and Mrs. John Dempsey.

Mr. and Mrs. Emmett Scott visited in Burlington Junction over Sunday with Mr. and Mrs. W. N. Houston.

### Operation on Julia Marlowe.

Baltimore, March 9.—Julia Marlowe, the actress, who recently was taken ill in Los Angeles, Cal., was operated on for appendicitis at a hospital here according to a report from a reliable source. Her condition was said to be serious.

### Bandit Robs Bank in Sacramento.

Sacramento, Cal., March 9.—A bandit walked into the Oak Park branch of the Sacramento bank of this city covered the cashier with a revolver and after taking \$1,000 in gold, silver and currency made his escape.

## CONDENSED NEWS

Milk sterilized by electricity, the microbes being killed by electric shocks, is being supplied from Liverpool corporation milk depots to 1,600 babies daily.

Five years in San Quentin was the sentence imposed on Captain A. D. Nelson, the pirate who attempted to hold up the steamer Willametta, commanded by Captain Charles Reimer, off the coast of Los Angeles county, California, Dec. 31.

The navy department was informed that Boatswain M. J. Wilkinson and thirty others of the crew of the tug Potomac, abandoned in the ice does of the Gulf of St. Lawrence, had reported on board the receiving ship at New York.

Four men were killed by a premature powder explosion in a tunnel being constructed through the summit of the Cascade mountains by the Chicago, Milwaukee and Puget Sound Railway company. The dead: Joseph Ryan, Ernest Hartman, Charles Burke and Joseph Janovich.

The officers and directors of the First National Bank and the Gillam-Jackson Loan and Trust Co. are exceedingly pleased with the above statement. The real value of a financial institution to a community is its ability to meet the demands of such community under any and all circumstances. The test of an institution engaged in making farm loans comes around March 1st of each year. This business is the chief feature of our Loan and Trust Company, and the confidence of the investing public in it, and its ability to expand to meet the demands of this particular season of the year is attested by the large funds placed with it at this time designated as "Deposits—temporary and awaiting investment."

For those with money to invest to place such an amount at its command at this time not only attests a high degree of confidence upon the part of investors, but also evidences the ability of the Loan and Trust Company to meet the demands of the community at all seasons of the year.

In soliciting the business of the banking and investing public we offer the above statement as the best evidence of the strength of our combined institutions and their ability to serve at all times.

March 4, 1913, the First National Bank's total resources were \$736,234.99. March 4, 1914, the total resources of such bank and its associate Loan and Trust Company were \$1,144,664.92. Note the increase—\$408,429.93.

This increase has never been equalled in the financial affairs of the community.

Come with us. We will appreciate your business and offer you "Absolute safety and unexcelled service."

The Above Statements are Correct, **JOS. JACKSON, JR.,** Cashier and Secretary

**Appointed Administratrix.**  
Mrs. Rebecca Brink was appointed administratrix of the estate of the late John L. Moore, whose death occurred February 26. Mrs. Brink was also appointed guardian of person and estate of Ernest W. Moore, George E. Moore, Fern F. Moore, Ralph C. Moore,

Harold L. Moore, Leonard J. Moore, all minors.

### BUSINESS COLLEGE NOTES.

Miss Nettie Cox began a special course in penmanship this week.  
Frank Porter, who has been out of school the past two weeks on account of sickness, has gone to his home at Clearfield, Ia.  
Roy Jackson is back in school again after a siege of the mumps.  
The many friends of Miss Mabel Neal will be pleased to learn that she is getting better, but will not be able to return to school for two or three weeks.  
Miss Mary Stundon returned to school last Monday after being absent two weeks on account of sickness.  
Mr. Davidson, Mr. Hutchison and Mr.

Welch, as well as Miss Nicholas, have been assisting Mr. J. Arthur Wray, county recorder, this week.

The Business college is a very busy place these days, for about one hundred teachers are taking the examination under the supervision of the county superintendent, Mr. Oakerson. Nodaway county is to be congratulated on the number of bright and intelligent young ladies and gentlemen enrolled in its teaching force.

Mrs. J. D. McGinnes and Mrs. H. J. Cline of Pickering were in Maryville Saturday on business.

## Andrews & Hempstead

Grocers and Bakers

This bakery has been running in Maryville for over 30 years, during that time a good many people have moved out of the city for various reasons and a great many more have moved in for the same reason. We really think a good many people don't know anything about our bakery and its products; in the first place we bake all our goods at night, so you can get fresh baked goods any morning by 7 o'clock, and we make a variety of bread that ought to please most any one except a dyspeptic.

Our daily output of bread consists of rye, graham, cream or (sandwich), pullman, quaker, rolls, buns, coffeebread and cinnamon rolls and a full assortment of cakes, cookies, doughnuts and pies. If you will phone us any morning between 8 and 9 you can have this delivered any place in the city before 12 o'clock.

The quality and price is right and we will let you be the judge and jury. Call 34 Hanamo or drop in when you are up town.

## Andrews & Hempstead

The Oldest Bakery in Northwest Missouri

We have many difficult cases of eye troubles to deal with—optical defects—that only glasses will relieve. You may have had other glasses that did not suit you, and been thoroughly disgusted with them, but that is no reason why you shouldn't take time to get glasses that are worth while. Not any glasses, but ones that are exactly suited to your eyes. Our examinations are thorough and accurate. When will you call?

**H. T. CRANE**  
Jeweler and Optician.

### IF WE CAN'T MAKE THAT WATCH OF YOURS GO

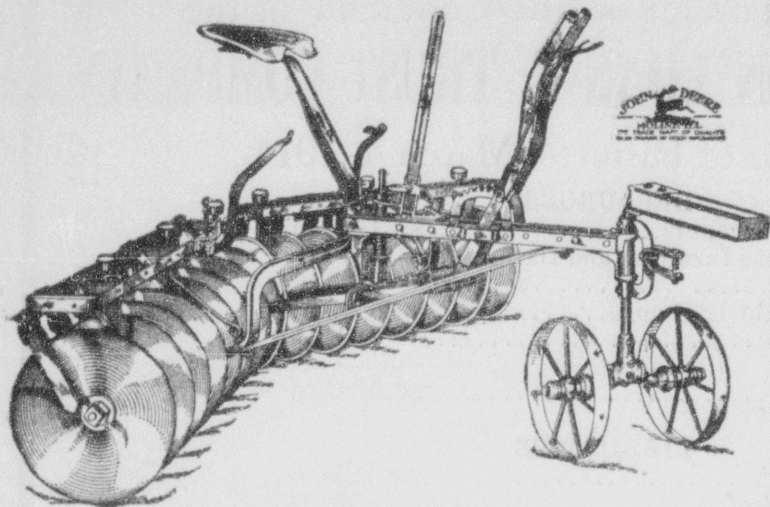

You may just as well give it to the baby to play with.

**JAS. STEWART,** who has had 30 years experience, has charge of our watch repairing department. We can get all of the service out of your watch that there is in it, even down to the last tick. Let us try it—Is all We Ask.

**Raines Brothers**  
JEWELRY & OPTICIAN  
108 N. 4th St. Maryville, Mo.

Pratt's Prevent Loss White Diarrhea Remedy

Without these two guaranteed protectives you cannot succeed with poultry. No other preparation is as good the first three weeks as Pratt's Baby Chick Food—25c, 50c and \$1.00—the only safe ration. Insures lusty growth.

To prevent intestinal troubles the one sure specific is Pratt's White Diarrhea Remedy—25c and 50c. After they pass the early critical period they mature quickly into profit paying members of your flock.

Refuse substitutes; insist on Pratt's. Satisfaction Guaranteed or Money Back. Get Pratt's 160 page Poultry Book.

For sale by Koch Pharmacy. Love & Gaugh. 3391

## Douglass (Colored) School.

A program was rendered at the Douglass (colored) school to the patrons of Maryville. Recitations, songs, select readings and papers were rendered by the pupils. Visitors present, Rev. D. A. Brown, C. C. Baker, J. L. Gooden, Ozle Schooler, Mrs. Brown and Mrs. Madison and Superintendent W. M. Westbrook. After the program Superintendent Westbrook made some timely and well accepted remarks that were helpful, encouraging and elevating to both pupils and visitors. Words of encouragement were given by all present. We are grateful to the patrons and our superintendent, also to Mr. O. Schooler, who read a paper on the history of Douglass school. All reported an enjoyable afternoon, and we wish to thank them for their presence and cordially extend an invitation to the citizens of Maryville to inspect our work. When idle for a few minutes come spend time with us. We need the encouragement, and I ask you, both white and colored, to help arouse some school interest with the members of my race. Thanking you for the help you may offer us in advance.

E. O. BOONE JR.,  
Teacher.

Facts About Western  
Canada

The farmer of today is recognized as a business man and puts himself on the pay roll at a salary beyond the dreams of the average man in the city, and he pays dividends on his investment.

Nowhere is he in a better position to realize the full profit of this condition than in Western Canada, with the rich productive soil at small cost and splendid markets; realizing from 40 to 100 per cent on his investment and obtaining the independence that cannot belong to any other business man.

The 433,000,000 bushel grain crop of Saskatchewan and Alberta yielded \$235,000,000 to the farmers last year. This represents the partial yield of less than 15 per cent of the available land under cultivation. Millions upon millions of acres of the finest arable land in the world awaits the plough—YOUR PLOUGH.

The annual increase in the world's population establishes an ever-growing market, and nowhere can you find more ideal conditions for grain raising than Western Canada affords. Grain growing, however, is but one item in the success of the Canadian farmer.

Our first excursion to this country of opportunity will be April 7th. For rates and terms see

THE RHODES LAND CO.
